LOCAL AND GENERAL.

THE *lex Parthia* was delivered in New York on the 25th inst.

TO-DAY is Coronation Day. The war-vessels of which our readers are part-owners, duly banged away at noon to notify the anniversary. Business did not stop two a cent, though.

THE two sampan-men in whose boat a large quantity of opium was discovered on the night of the 21st inst. were before Mr. Robinson this morning, and fined \$50, for having exhibited no light on their boat on that night.

MESSRS. Butterfield & Swire inform us that the Ocean Steamship Co.'s steamer *Nestor*, from Liverpool, left Singapore for this port yesterday morning, and is due on the 3rd prox. The *Diamond* left at 9 a.m. to-day, and is due on the 4th prox.

WE are informed by the Agents (Messrs. Arnhold, Karberg & Co.) that the China Shippers' Mutual S. N. Co.'s steamer *Peking*, from London and Liverpool, left Singapore for this port on the 26th inst., and may be expected on or about the 2nd prox.

TO-MORROW morning between 9 and 10.30 o'clock the steam-launch carrying the Bethel bell will call alongside any vessel hoisting code pennant C, to convey men ashore to 11 a.m. service at St. Peter's Seamen's Church, returning about 12.30.

WE learn from Canton that, owing to arrangements concluded by Sir Robert Hart, the Chinese Imperial Maritime Customs will take over the collection of all duties on the importation of cotton-yarn and kerosene. It is further reported that a very considerable reduction in the tariff will be made.

WE learn on good authority that the whole of the treasure, amounting to \$37,000, which went down with the steamship *Yangtze* off Haehsin Island on the 14th inst., has been saved, and that there are good prospects of the 114 chests of opium and most of the general cargo being recovered within the next few days.

CAPT. J. Metcalfe, so well-known for many years in Hongkong as commander of the White Star liner *Oceanic*, arrived at San Francisco from England on May 28th. He has taken over the duties of Lloyd's Surveyor at San Francisco, with his headquarters at the Canton Insurance Office, for which Company he is also surveyor.

THE *Japan Herald* of June 19th says:—"The Japanese steamer *Ashikaga*, in leaving the Yokohama Anchorage this morning, got ashore on the Spit. The tide at the time being very low she remained there until 1.30 p.m., when she got off and proceeded on her voyage. Had the Captain taken the trouble to consult a chart, he would not have tried to cross the spit halfway between buoy and the shore, especially as the buoy is only moored in 4 fathoms."

THE O. & O. Co.'s steamship *Belge*, which a rived yesterday evening from San Francisco with the American mails, brought the following shipments of treasure to this port:—

MR. J. HELMUS FERGUSON, Minister to China for the Netherlands, has just returned to his duties via the United States after a short leave of absence in Europe. Whilst in New York Mr. Ferguson was, of course, a mark for the irrepressible interviewer. Amongst other things he told the reporter something about the railway prospects in the Celestial Empire. "A plan of a great railway system for China," said Mr. Ferguson, "is now before the Emperor, and a favorable decision is hoped for. The central idea of the proposed scheme is the connection of Peking with the capitals of the provinces."

THE *Japan Official Gazette* states that at 6.30 p.m. on the 13th inst., Rear-Admiral Osman Pasha, the special representative from Turkey, attended the Palace with his suite, and presented the Emperor with an autograph letter from the Sultan and a decoration. At the same time an audience was also granted by the Emperor, after which the Admiral and his suite were decorated. At 7 p.m. the party sat down to dinner with the Emperor, to which Princes Komatsu and Fushimi, Count Oyama, Viscount Kabayama, Marquis Tokudaiji, Prince Iwakura and other nobles were invited.

THUS the *San Francisco Chronicle*:—"The German Consul Stuebel, who made so much trouble at Apla by his autocratic methods, has been appointed the head of the Consular office in Shanghai. If he keeps up his old record as a mischief-maker he will probably set Germany and Russia by the ears. There is a fine chance for raising a row in Korea, where all relations are strained and Russia is suspected of designs on the country." If Herr Stuebel has not reformed we may expect to hear from him before long. He promises to play in the German Consular service the same lively part that Sir John Pope Hennessy has played in the British colonial service.

THE man who looks after the Opium Farmer's stock was among the penitents over whom Mr. Robinson ran the rule, at the Police Court, this morning. For a long time the manager, Mr. Koh, had suspected him of pilfering from the stock, but the method pursued by the manager rendered it difficult to fix his guilt upon him. He had charge of from \$100,000 to \$150,000 worth of opium, and by taking infinitesimal quantities from each pot he was able, undetected, to abstract a considerable quantity daily. Last evening, however, he was seen to do so by Mr. Koh, and arrested with some \$20 worth in his possession. He admitted his guilt, and is now on remand.

THE *Tokyo Shimpō* states that it is the intention of Mr. Arao Sei, a gentleman who has interested himself greatly in the trade between Japan and China, to open an exhibition in Tokyo of goods fitted for that trade, and also to hold meetings for the discussion of means for developing it. He believes that no better time for this could be selected than the present, when many commercial people have been drawn to the Japanese capital in connection with the Exhibition. He will be assisted by various Japanese and Chinese, who are versed in trade conditions, and will explain the articles of export and import that are to be shown, as well as furnish information that may be of value in remedying the present depressed condition of commerce. Under certain conditions any one was invited to send samples to Mr. Arao's exhibition up to the 31st inst. Mr. Arao intends to open a Commercial School at Shanghai, and by the 22nd inst. hoped to finish the examination of some 500 candidates for admission, natives of the western provinces, who were going to Tokyo for that purpose. Only 200 can be admitted to the school, and the successful candidates will depart for Shanghai in August.

THE "At Home" held by the Stanley crowd at the City Hall last evening was attended by the largest and most appreciative audience we have seen for a long while. All the world and his wife were there to beam and be beamed on, as were also a couple from another sphere who occupied that place around which all those who are beautiful and bright hover on a show night—to wit His Excellency's box. We inquired and were told in bated breath that they were the Dowager Duchess of Tealeaf and the Countess of Ruedegard, out for the evening, *incognito*. An A. D. C. watched from a distance, but there was no occasion for his services. The management showed good judgment in deciding to give a "Variety" show, for it is in this particular line of business that the Company is seen to advantage. In fact we believe it was with this object that the best talent in the crowd was recruited. Last night each one performed in his or her own special line, with the result that the success of the whole was far beyond anything achieved by the Company yet. As we are more inclined to be gallant than critical we'll take the girls first. The ballads of Miss Ada Maitland and Miss Amy Childs were an agreeable surprise, the former especially singing with much taste and feeling, while the latter sang a number of that really clever little lass, Miss A. Stanley, were rendered in a most bewitching way. The appearance of this fair artist at any time causes quite a flutter in the bosoms of many sighing swains, but last night the havoc she wrought was awful to behold. Miss F. Stanley also sang a rather taking ditty, and for it received a well merited round of applause, and last, but not least, comes Miss Florrie Stephenson, the cleverest dancer in the crowd. Miss Florrie is a bright little lady and bids fair to become a star of the first magnitude in the dancing line. The singer business of Mr. Tommy Emson was really good, although some of his jokes and gags were the same chestnuts that tickled the ribs of the patriarchs of old, but his singing and facial contortions were those of a first-class artist. In the lighter line of course, Mr. Frank Fletcher's "musical specialties" were a feature of the evening and stamped him as a man who could knock music out of prison bars. He is decidedly a musician, although in his voice and acting there is so much room for improvement that we fear the span of life allotted to mortals is all too short to allow him effect much change in either. Mr. Clarence Lyndon had a chance to shine last night and made the most of it, his clever and graceful dancing simply brought the house down. Messrs. Packard, Liddard, Boyd, and the veteran Mr. Stanley each contributed to the success of the show. We hope the reception they met with last night will induce the management to shove opera overboard and give a repetition or two of last night's show. "Tambour Major" to-night, and we wish in a sympathetic way to think how many "flutters" will be there to beat time to the drummer's tattoo.

THE HONGKONG AND KOWLOON WHARF AND GODOWN COMPANY, LIMITED.

DISSENTIENT SHAREHOLDERS.

The third ordinary annual meeting of the shareholders in this Company was held at noon to-day, in the Chamber of Commerce, City Hall. The Hon. J. J. Keswick presided, and there were present:—Hon. C. P. Chater, Messrs. W. H. Forbes, E. L. Woodin, S. C. Michaelson, F. Dodwell, H. Hopplis, L. Poensnecker (directors), A. G. Morris, D. McCulloch, G. S. Coxon, C. S. Taylor, J. Goossman, R. A. Gubbay, W. Legge, N. J. Robinson, T. I. Rose, J. M. G. Manuk, W. H. Gaskell, S. Perry, and E. Osborne (secretary).

The Chairman said:—Gentlemen, the first duty devolving upon me is to explain to the shareholders, on behalf of the Directors, how it comes to pass that the Reports and Accounts for the year 1889 are only now published, and how it happens that this meeting, which ought to have been held in January last, is only now taking place on the 28th of June. It is always a disagreeable task to admit defeat, especially in a public manner, on the conduct of any one, but I regret to say I cannot explain how the delay in connection with the accounts has arisen without stating that the Company's book-keeper absolutely neglected his duty, and has occasioned much anxiety and trouble. His services have been dispensed with and it only remains for me, on behalf of the Directors, to express regret that he should have been, unfortunately, selected for the office. I have now, gentlemen, to turn to the Accounts, which have at last been laid before you, and in doing so I am sorry that they are not more satisfactory and that the profits arising from wharfing business have not been more before you are not, it has been remarked to me very easily understood when taken in connection with the statements of the previous years, which are worded somewhat differently—but I need not say that the fullest information will be afforded by the Secretary, most willingly, to any

one who seeks an explanation on any point he does not understand. You observe that the Working Account shows a credit balance of only \$7,184.1, after paying an *ad interim* dividend of \$3 per share, which is unsatisfactory when the gross receipts of \$203,000 is taken into consideration; but I trust the future may show the possibility of doing better. The heavy rental of the West Point Godowns, amounting to about \$40,000 per annum, will not again be incurred in its entirety after the 30th inst. and I hope that by economies in various ways it may be possible to earn more satisfactory dividends hereafter. As you will observe, the balance of working account transferred to profit and loss account brings the credit balance of that account up to \$421,341.33, which large sum is made up of the profits on the sale of the P. & O. West Point property and of two pieces of reclaimed land and an estimated value of a certain residue of frontage land reserved by the Company. There may be a difference of opinion as to whether the dividend of \$2 per share, which it is now proposed to pay, should properly be paid, seeing that the Company has not actually earned it in its legitimate business, but as the balance is one without liabilities I dare say you will accept the Directors' recommendation. The accounts to 31st May, you will be glad to know, give good promise for the current year, and the absence of claims for damage by rain which was so serious last year, amounts this season to little or nothing. It does not occur to me that I can add anything to what I have said, but before proposing the adoption of the report and accounts I shall be pleased to answer any questions as far as lies in my power.

Mr. Taylor:—The directors recommend a dividend of \$40,000, which I am afraid cannot be declared—in the first place, because the Company have not earned it, and in the second, because we have no money with which to pay it. I object to your bringing forward \$352,000 to the Profit and Loss account; the only money you have earned is \$71,000 from the sale of the West Point property, and against that you have to set a loss of \$66,000, which has been realised on the West Point property, and which you have brought into the Reclamation account. You have then, according to my accounts, only \$9,175.24 to deal with, and if from that you take the directors' and auditors' fees there remains only \$2,575 for distribution. Since the accounts came into my hands I have gone very carefully into the figures and I have found so many irregularities that I think it would have been safer not to pass the accounts in the form presented. I do not know whether anyone has taken the trouble to think out what the figures mean, but I wish to draw your attention to the figures of the past three years—1887-8, 1888-9, and 1889-90. First of all you have the wages account, for those years—\$45,000; \$74,000; and \$85,000 respectively; Crown rent, \$13,000, \$6,000, and \$9,000; office expenses, \$7,000, \$3,000, and \$7,000; launches and lighters, \$3,000, \$8,000, and \$10,000; claims, \$2,000, \$3,000, and \$12,000; and the profit and loss account, \$12,000, \$7,000, and \$3,000. I wish you to take particular note of these figures, because shareholders as a rule do not inquire how they have been arrived at—they are satisfied if the results are good, and are content to take the directors' statement. From the accounts it is easy to make out a statement of the Working account for this year—wages, \$85,000; Crown rent and taxes, \$9,000; office expenses, \$7,000; launches and lighters, \$8,000; fire insurance \$300; rent and taxes of the West Point property, \$41,000; directors' and auditors' fees, \$5,500; interest, \$31,000; total, \$188,000. Against this we have to place \$203,000 for receipts, leaving a net profit of \$15,000, without making any provision for claims, as you say that this year they are of no material consequence. If you had your original capital the profits would of course have been larger, because you would not have been paying interest on borrowed money, which comes to about \$45,000. If your profit this year is only \$15,000, would you see to it that the same explanation is required of the profits of the past three years, which were, in 1887 \$26,000, in 1888 \$39,000, and in 1889 \$46,000. The question I have set myself to answer. The only way I can make it comprehensible is by assuming that you have been debiting sums to Property account which should really have gone to Working account. In 1887 you had borrowed \$232,000; in 1888 \$307,000, and in 1889 \$453,000, on which you paid interest to the amount of \$16,000, \$21,000, and \$32,000. Now where have these sums gone? They don't appear in this report. In the 1887 report you credit Working account with the interest of \$15,000, which you say was realised from the money lent on the West Point property. You have to get rid of \$16,000 of interest, and I suppose you have done it by debiting Property account. The outside gains in 1889, which did not appear in former years, amount to \$6,000. In 1889 you tax the West Point property with \$3,000, which does not appear in 1887, although I suppose the conditions of lease in 1887 were not different to those in 1889. All those figures, taken together, show that the profits in 1887 were \$46,000, instead of \$76,000. In 1888 you have to account for \$21,000 interest, which does not appear in the Working account, on the contrary you credit it with nearly \$34,000—that is, you take credit for all the interest you receive, and do not debit it with the interest you pay. This would reduce the earnings of 1888 from \$93,000 to \$60,000. In 1889 you merely credit the account with \$10,000 interest, but I cannot see where it comes from, because the loans then amounted to \$450,000, and the interest would amount to \$33,000. Therefore I suppose it must have gone to Property account. These items, so far as they refer to 1887 and 1888, must be passed, because we have already approved those accounts, but so far as the accounts before us are concerned, I do not think there is any occasion to pass them. My contention is that you are dealing with profits that will accrue at some future period, and to be consistent you must not. Were I to go to the Hongkong and Shanghai Bank meeting, and ask them to declare as a dividend their earnings for the next three years, they would report me. You are dealing with money that has yet to be earned. I do not think people in Hongkong expect very much from directors, because they know directors are only supposed to be in order to give their business to the shareholders, and I myself think it would be injudicious for the directors to interfere with the management. It is in that connection that I want to bring forward some references to the management—or, I should say, mis-management, of the Company's affairs from the first. If I were offered the management of the Hongkong and Shanghai Bank, and I accepted it, and did this, would you not blame me for it? I do not blame Mr. Osborne for accepting the position, but as he has accepted the responsibilities he cannot get rid of the liabilities. If you are going to suppose the Company, and I myself think it would be injudicious for the directors to interfere with the management. I do not blame Mr. Osborne for accepting the position, but as he has accepted the responsibilities he cannot get rid of the liabilities. If you are going to suppose the Company, and I myself think it would be injudicious for the directors to interfere with the management. It is in that connection that I want to bring forward some references to the management—or, I should say, mis-management, of the Company's affairs from the first. If I were offered the management of the Hongkong and Shanghai Bank, and I accepted it, and did this, would you not blame me for it? I do not blame Mr. Osborne for accepting the position, but as he has accepted the responsibilities he cannot get rid of the liabilities.
